Although it does not come with advanced functionality, Media Player Classic - Home Cinema Portable still makes an excellent choice for those who just want to open multimedia files without wasting their time.. Media Player Classic - Home Cinema Portable (shortly known as MPC-HC) is an effective and reliable application whose main purpose is to help you play your favorite video files and listen to your songs within seconds.. , you are able to play what files you want The application sports the exact same functionality as the; hence we dare say it is even more practical than the latter, since it doesn't affect the computer's registry.

The Navigate section enables you to go to the previous file or jump to a specific song, as well as select audio and subtitle language, tile and chapter menu.. Since it comes with support for all media formats including AVI, MP3, WAV, MP4, FLV etc.. Simply navigate to the File menu and quickly open a file or directory However, if you want to open an entire folder, the application will minimize and maximize according to the file type.
